TwinTech® No Frost. Keeps food from drying-up
TwinTech® No Frost fridge-freezer protects flavours in every ingredient. Superior to standard total No Frost, advanced technology combines two cooling systems for fridge and freezer. Freezer is No Frost. Fridge humidity is kept optimal resulting in 60% less food mass loss and ingredients kept juicy.

Stable temperatures, with MultiFlow
MultiFlow protects the quality of food by maintaining stable temperature and humidity in the whole fridge. Multiple air channels enable an active circulation of cold air reaching every corner.

Extra Chill drawer. For delicate fresh cuts
Slow down the maturation of your favourite cheeses and cold cuts by storing them in the Extra Chill drawer. The zone maintains a lower temperature than the rest of the fridge.
