- Set the right mood with warm to cool white light
- Unlock the full suite of smart lighting features with the Bridge

Issue date: 2026-08-05 Version: 0.95

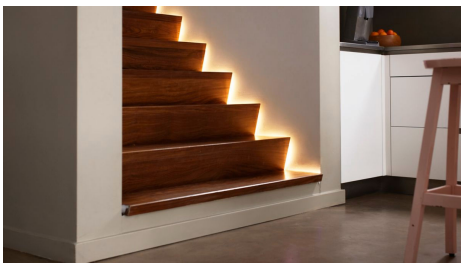

Highlights

Bright light output

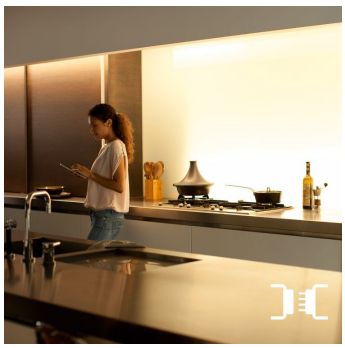

With light coverage over its total length and a high output of 1600 lumen, Philips Hue strip lights provide enough light to be used both as a decorative and functional light source.

Shape, cut, or extend your Lightstrip

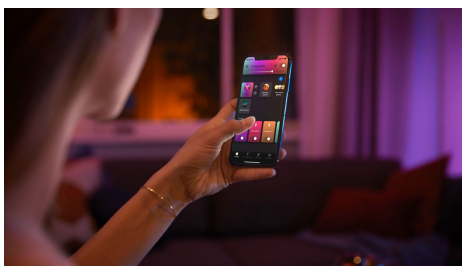

Completely flexible, the indoor strip light lets you shape and bend it to fit your space. Attach a Lightstrip extension for larger surfaces or cut the strip to size to fit into a smaller space. The leftover piece won't go to waste: use the included connector clip to attach the strip you've cut off to another Lightstrip base unit!

Extendible up to 10 meters

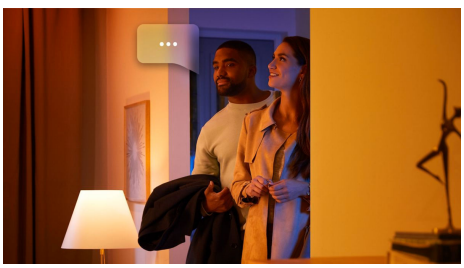

Extend your Philips Hue Lightstrip Plus up to 10 meters by adding 1 meter extensions* to cover larger surfaces and enable wider applications. From bright cove lighting to ambient navigation light in your hallway or stairs, anything is possible. Philips Hue lightstrip plus gives you full color consistency from the first to the last extension.*Can only be extended with the Bluetooth-compatible version.

Control up to 10 lights with the Bluetooth app

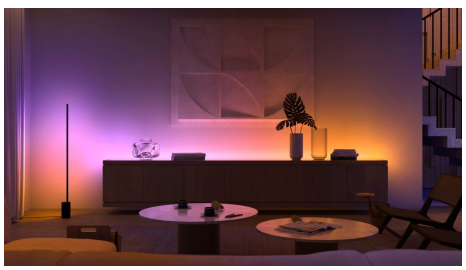

Philips Hue with Bluetooth is the easiest way to get started with smart lighting. Set the mood instantly with Bluetooth-enabled light fixtures and the Hue Bluetooth app, which allows you to control up to 10 lights in a room.

Control lights with your voice*

Philips Hue works with Amazon Alexa and the Google Assistant when paired with a compatible Google Nest or Amazon Echo device. Simple voice commands allow you to control multiple lights in a room or just a single lamp.

Create a personalized experience with colorful smart light

Instantly set the mood for any occasion with 16 million colors of light. Transform any room for an immersive entertainment experience, create the perfect atmosphere for a get-together with friends, or complement your home decor.

Set the right mood with warm to cool white light

These bulbs and light fixtures offer different shades of warm to cool white light. With complete dimmability from bright to low nightlights, you can tune your lights to the perfect shade and brightness of light for your daily needs.

Unlock the full suite of smart lighting features with the Bridge

The Bridge unlocks the features that make smart lighting truly smart — away-from-home control, voice control, automated lighting, and much more. Add a Bridge to your setup to create immersive experiences, tap into technology that's secure and reliable, and more. The Bridge is the key to smart lighting like you've never seen before.
