EC-30

Small event controller

- **Specifically designed for small events**
- **Full show control at your fingertips**
- **Instant access to crucial functionalities**

The most compact version of the Event Master controllers delivers instant access to the most crucial features, for everything from a tradeshow booth to a large corporate event, or even a music tour.

The EC-30 gives the operator a compact surface and simplified workflow, while still providing fingertip control where budget and space are the deciding factors. The EC-30 is an extension of the Event Master toolset, bringing the essential selections for sources, presets, layers and destinations to your fingertips. As a USB peripheral added to your existing Event Master control computer, it is the most cost-effective and compact alternative to a full-sized controller.

EC-30

- Complimentary control of the Event Master Series switchers
