

BUSINESS DEVICES THAT ARE A CLASS APART

ThinkBook combines the style and user experience of consumer devices with the security and business-class support of ThinkPad.

ThinkBook 15 IIL

Smarter technology for all

Lenovo

Today's young, and increasingly mobile, workforce demand more from a work device. This laptop is one of the thinnest and lightest available at this price range, and is packed with innovations; the optional fingerprint power button authenticates the user and wakes the device at the same time. Lenovo Hidden Port enables mouse dongles or nano-USB storage drives to be hidden behind a discrete 'door' in the side of the device.

REASONS TO BUY

It may have the design aesthetic of the latest consumer electronics with its ultra-narrow frame and anodized aluminum cover, but it's built for business with the same warranty and support services as a ThinkPad. That means your mobile users can access to extended warranties, faster technical support and advanced deployment services.

Optional WiFi 6 technology; with compatible routers and access points this enables more devices to connect at the same time without reducing bandwidth. It also features a WPA3 security protocol that is harder to hack.

The power button has an optional integrated fingerprint reader, so users can power-on or wake the device, and securely authenticate themselves at the same time.

ThinkBook 15 IIL

KEY SPECIFICATIONS

Processor	up to 10th Gen Intel Core i7 processor
Operating System	Powered by Windows 10 Pro
Display	15.6"" screen, Full HD (1920x1080), IPS, 800:1 contrast ratio 15.6"" screen, Full HD (1920x1080), TN, 500:1 contrast ratio
Graphics	Intel UHD Graphics or Intel Iris Plus Graphics in processor, optional AMD Radeon 630 2GB
Memory	up to 16GB DDR4-2666 or DDR4-3200
