NGS WIRED KEYBOARD FUNKY V2

WIRED 104 KEYS STANDARD KEYBOARD

NGS FunkyV2 is a mechanical feeling keyboard with USB connection. This keyboard has a “leather grain” black finish conferring elegance and personality.

You’ll enjoy a comfortable and quiet typing experience thanks to the 104 membrane keys that barely make a sound. Furthermore, it features an original and spill resistant design, offering lasting performance, approximately 10 million keystrokes.

Its ability to be so resilient is due to the antiwear treatment to prevent characters to wear off and assuring a lasting life.

NGS FunkyV2 also includes sturdy folding legs to increase the keyboard tilt and a 1,4 m lenght cable to address your personal ergonomic needs.

Finally, NGS Funky V2 also incorporates Plug&Play function that permits to connect the computer immediately, no software needed.
