Hot shoe clamp for external storage

Secure grip

The IB-CA100 has two anti-slip rubber pads. These provide excellent grip for all mounted enclosures or objects. This prevents accidental slipping and allows you to concentrate fully on your work.

Flexibility

The clamping width of 9 - 16 mm with a width of 40 mm ensures great flexibility. This means that all common M.2 enclosures can be mounted. The assembly can be carried out without tools and super fast.

Additional support

An additional extension can be mounted on the IB-CA100. The 1.4" thread corresponds to a common tripod thread, as also found on the underside of a conventional camera.

Logistical data

Packing unit:	80 pcs./carton	**Dimension/Carton:**	430x380x260 mm
Total weight:	12.7 kg	**Dimension** (with packing)**:**	40x85x100 mm
Gross weight: (with packing)**:**	0.151 kg	**Dimension of article:**	35x57x55 mm
Net weight:	0.105 kg	**Country of Origin:**	China
