Extended retailer text	Call with Quality Sound and Video This webcam is built to deliver pixel-clear video and disturbance-free audio, so you don’t have to worry about anything other than managing your meeting or connecting with friends. Two integrated microphones pick up your voice clearly and you can take calls in QHD resolution (2560x1440) with 30 frames per second. With additional support for 720p HD and 1080p Full HD, the Taxon can be used with any device.

Wide Angle and Autofocus

With a wide-angle glass lens the Taxon is well suited to making group calls. The 80-degree angle covers a wider area than a standard lens, so more than one person can fit in the video frame without moving or adjusting the camera position, and thanks to autofocus you are the centre of attention at all times.

Plug & Play Features

Video calling with the Taxon is a breeze thanks to its versatility. Use the stand that works perfectly with your home office set up; attach the camera to your monitor or place it on your desk with the universal stand, or mount the camera on a tripod stand (not included), thanks to the ¼" thread. An LED indicator at the front of the camera shows the status of the webcam, and you can use this webcam with all major video-conference software, such as Skype, Teams and Zoom.
