Turn talk into type

- Speech-to-tex: Dragon NaturallySpeaking DVR Edition included
- Automatically transcribe your dictation files
- Create documents three times faster than most people type
- More accurate than ever, delivering up to 99% accuracy

PHILIPS

Digital recorder with ClearVoice
Speech to text

LFH0625/27

Highlights

ClearVoice

Recording with good audio quality at lectures or presentations can be a challenge. Especially if you do not sit in the front row, the voice of the speaker may be to quiet too record in acceptable quality. The ClearVoice feature adjusts quiet passages dynamically, thus improving the intelligibility of quieter voices.

MP3 recording

The MP3 format is the common audio format for consumer audio storage, as well as a de facto standard encoding for the transfer and playback of recordings.

One-touch operation

Press and hold the record button for a moment to switch the Voice Tracer on and start recording instantly.

Speech-to-text

Turn talk into type with the Dragon NaturallySpeaking software delivering more accurate results than ever.

Automatic transcription

With our state-of-the-art software just plug the recorder into the PC, transfer your file and let it turn your talk into text.

Create documents faster

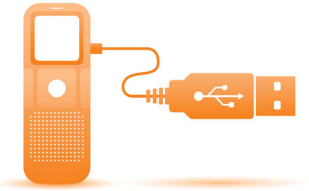

With the innovative speech recognition software you can now convert your dictation files into text files automatically and avoid time-consuming retyping.

Up to 99% accuracy

The powerful software solution now more accurate than ever! Delivering up to 99% accuracy for an efficient workflow.

Rapidly transfer recordings

Thanks to the fast data transfer of a hi-speed 2.0 USB connection, transfering recordings to your PC is up to 40 times faster compared with the original USB standard.

Index function

The index function helps and eases finding relevant passages in an instant.

Specifications

Connectivity
- Headphones: 3.5 mm
- Microphone: 3.5 mm
- USB: High-speed USB 2.0

Display
- Type: LCD
- Diagonal screen size: 34.5 mm/1.4 in.
- Backlight: no

Storage media
- Built-in memory capacity: 2 GB
- Buit-in memory type: NAND Flash
- Mass storage class compliant

Audio recording
- Recording formats: MPEG1 layer 3 (MP3)
- Built-in microphone: mono
- Recording modes: HQ (MP3/mono), SP (MP3/mono), LP (MP3/mono), SLP (MP3/mono)
