Keep your children safe from accidentally using the microwave with the easy to set up Child Lock.

If your fridge door is left open too long it will let you know, saving your food and your energy bills.

Does your fridge fit in a perfect spot but never quite opens ideally? By switching which side the door opens your fridge becomes part of your kitchen not an obstacle.

When you go on a break so does your fridge. Holiday Mode allows your fridge to use less energy while running at a constant ten degrees.

The fridge will always look after you by letting you know if it has experienced a loss of power and therefore if the food inside has potentially spoiled.

Ergonomically designed, to save you space in your kitchen. The doors opens flush so they fit perfectly in your kitchen space.
