## KVM switch for two PCs

Key features

- Control of two independent computers with one keyboard/mouse set and one monitor
- Saves space, nerves and time
- Easy switching between computers via hotkey function
- Premium High-Speed HDMI® with up to 4096x2160@60 Hz
- Easy driverless installation with Plug & Play
- For Windows® and macOS®

**Packing content**
1x IB-KVM8801-HU2, 2x HDMI® cable, 2x USB/audio cable, 1x Wall power adapter + power cable, 1x Extra remote switch + cable, 1x Manual

## 2-in-1

With this solid ICY BOX® KVM switch you can easily connect two independent PCs to one monitor and one set of keyboard and mouse. This saves space, nerves and time. In addition, two more USB 2.0 Type-A ports are available to use additional USB devices such as external storage or other useful peripherals via both computers. Switching between the two PCs is as simple as pressing a hotkey on the keyboard or double-clicking with the mouse.

## KVM switch for two PCs

## Saves space and nerves

Gain 50% more space on your desk! Two PCs can be controlled with the IB-KVM8801-HU2 switch via only one set of keyboard, mouse and monitor. Other peripherals or external storage devices can also be used on both PCs via the integrated USB Type-A connections. This creates high efficiency with low material costs.

## Switching made easy

All options for switching are at your disposal: whether switching by double-clicking on the scroll wheel of the mouse, by key combination of your choice on the keyboard or by remote switch on the desk. Of course, you can also switch between the two PCs on the KVM switch itself. Whether Windows® or macOS® , both systems are fully supported.

## Resolutions for the highest demands

The IB-KVM8801-HU2 supports resolutions of up to 4096x2160@60 Hz and is thus equipped for the highest demands. The annoying switching between several monitors and the associated space requirements have come to an end. The IB-KVM8801-HU2 is the perfect partner for your workplace in the office or home office.
