Part No.: 715775

EAN-13: 0766623715775 | UPC: 766623715775

Split Cabinet Door for Easy Access

Make access to 19" server and network cabinets more convenient in confined spaces with this vertically split door from Intellinet Network Solutions. It provides a seamless fit on select Intellinet Standard cabinets, offering full cabinet access through two smaller doors that open from the center. Since less space is required to open the cabinet, a split door is perfect for a crowded server room where a single, regular-sized door would not have the room to swing open. The door's powder-coated steel is perforated to provide excellent airflow, while the multi-point door lock keeps your components safe.

Features:

- Suitable for select 19" standing cabinets in the Intellinet Network Solutions standard cabinet line
- Vertically split double door ideal for confined spaces
- Durable steel with thickness up to 1.2 mm
- Perforation to support a free-air ratio of 65%
- Antistatic powder coating
- Multi-point door lock
