Leaks happen but with the Aquastop you have the peace of mind that if a leak is detected the water supply is shut off to protect you and your home.

Program your dishwasher so that it starts at a time that suits you.

For those times when you only have half a load but need it done the Eco Wash allows you to select either the top or bottom half of the machine to be cleaned.

When time is of the essence this program does the dishes in 50 minutes at 60°c.

When you have to fit every dish, glass, fork and pot into one load these machines can cater to even the largest of families or dinner parties.

An anti-bacterial system added to the filter kills 99% of bacteria in the wash. Take that germs.
