Highlights

Fidelio sound and design

This Fidelio soundbar with integrated subwoofer fills any room with dramatic effects, rich soundtracks and crystal-clear dialogue. The soundbar looks beautiful, too—with anthracite Muirhead leather trim offsetting the fine metal mesh on the top and front.

7.1.2 channels. 620 W max

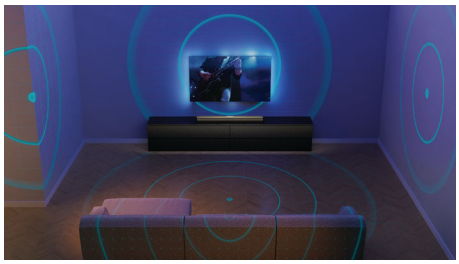

Custom-built Fidelio speakers—including two up-firing speakers—let sound flow above and around you. The built-in subwoofer adds real weight. Front left, front right and centre channels all boast tweeters placed between two mid-range woofers for crystal-clear speech, vocals and surround sound.

Philips Wireless Home System

This Play-Fi-compatible Fidelio soundbar lets you build your perfect home-cinema sound. Connect the soundbar to an external Fidelio subwoofer in seconds to add even more depth to the sound of movies and music. For extra immersion, add paired wireless speakers to create a true surround-sound setup.

Room calibration

No matter what shape or size your room is—always get perfect Fidelio sound. Simply connect the included mic, then place the mic where you sit to watch TV. The soundbar measures how sound travels in the room, intelligently adjusting each channel's output to guarantee sublime surround sound.

IMAX Enhanced certified

Your Fidelio soundbar is certified IMAX Enhanced, which means it's capable of delivering an audio experience that truly matches IMAX's extraordinary sense of scale. From pulse-quickening explosions to heart-stopping whispers—feel every moment of movies originally made to play in IMAX cinemas.

Dolby Atmos®

You get the full Dolby Atmos experience from this soundbar's dedicated up-firing speakers. Your favourite movies and shows will sound breathtakingly realistic as sound flows above and around you. When watching non-Atmos content, the soundbar adjusts to give you the richest possible sound.

HDMI eARC

Lose nothing from the mix when you're immersed in the drama. This soundbar is compatible with HDMI eARC, a high-speed connection that lets you experience the full effect of advanced audio formats like Dolby Atmos and DTS:X.

Superb with music

Let the songs you love come alive, as natural Fidelio sound makes the most of the music you stream. Warm, perfectly timed, with rich bass and lush detail in mids and highs. Whether it's Spotify Connect or playlists streamed via streaming services like Amazon, Spotify, Deezer or Tidal.

Connect with voice assistants

Ask Alexa-enabled devices, or any speaker that works with the Google Assistant, to play music through the soundbar. Prefer Siri? This soundbar works with Apple AirPlay 2, so you can ask her too. Turn the music up. Skip tracks. All completely hands-free.
